a. Sum of All Items.....					\$ _____
NOTE: Bidders must complete all unit prices and amounts. Failure to do so may be grounds for rejection of bids.					

1 **PROPOSAL SCHEDULE**

2
3 The bidder is directed to Subsection 105.16 – Subcontracts.

4
5 If the bid price for any proposal item having a maximum allowable bid
6 indicated therefore in any of the contract documents is in excess of such a
7 maximum amount, the bid price for such proposal item shall be adjusted to reflect
8 the limitation thereon. The comparison of bids to determine the successful bidder
9 and the amount of contract to be awarded shall be determined after such
10 adjustments are made, and such adjustments shall be binding upon the bidder.

11
12 The "SUM OF ALL ITEMS" will be used to determine the lowest responsible
13 bidder per area.

14
15 Notes:

- 16
17 1. Bid prices are for travel time, mileage and furnishing all labor, tools,
18 traffic controls, all applicable taxes, fees and equipment necessary
19 for all work shown and called for in accordance with the true intent
20 and meaning of the specifications.
21
22 2. Any contract which is awarded shall be an open-ended contract since
23 the exact value of work to be performed during the contract period
24 cannot be determined beforehand. The unit price for each item of
25 work on any particular work order shall be that which corresponds to
26 the quantity of work for that item actually performed for each work
27 order.
28
29 3. The sum of all work and materials required to perform the required
30 repairs are issued on a "single work order." A single work order shall
31 be a work order submitted by the Engineer for work that can be
32 performed by the Contractor without relocating a distance of more
33 than 1 mile between any two adjacent repair locations.
34
35 4. The "Approx. Minimum and Maximum Quantity" on the proposal
36 schedule is for bidding purposes only, and this is no guarantee of the
37 quantity of work that will be issued.
38
39
