Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29 CFR 5.5 (a) (1) (ii)).

In the listing above, the "SU" designation means that rates listed under the identifier do not reflect collectively bargained wage and fringe benefit rates. Other designations indicate unions whose rates have been determined to be prevailing.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the

interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

END OF GENERAL DECISION

1 Make the following Section a part of the Standard Specifications:

2
3
4 **"SECTION 615 – MILLED RUMBLE STRIP**

5
6 **615.01 Description.** This section describes constructing Centerline,
7 Shoulder, and Edgeline Milled Rumble Strips (MRS) in HMA pavement.

8
9 **615.02 Materials.** None.

10
11 **615.03 Construction.**

12
13 **(A) Submittal.** Method of constructing the milled rumble strip shall
14 be submitted to the Engineer for acceptance. Meeting shall be
15 scheduled 14 days before start of construction work. Discuss sequence
16 of work plans, and proposal for dust control.

17
18 **(B) Equipment.** Milling equipment shall be equipped with a rotary-
19 type cutting head with cutting tips arranged in a pattern as to provide a
20 relatively smooth cut, approximately 1/16 inches between peaks and
21 valleys.

22
23 The cutting head(s) shall be on a suspension independent from the
24 power unit to allow the head(s) to self-align with surface slopes and
25 irregularities.

26
27 The machine shall have a guidance system that provides
28 consistent alignment of each cut in relation to the roadway and provide
29 uniformity and consistency throughout the project.

30
31 **(C) Longitudinal Spacing.** The Milled Rumble Strips (MRS) shall be
32 placed perpendicular to the roadway with longitudinal spacing as follow:

33
34 Centerline MRS: 20 inch on-center
35 Shoulder MRS: 12 inch on-center
36 Edgeline MRS: 12 inch on-center

37
38 The 20 inch on-center longitudinal spacing for Centerline MRS is
39 designed to accommodate varies centerline pavement striping and raised
40 pavement marker configurations. It will allow placement of raised
41 pavement markers between the concave depressions.

42
43 **(D) Milling Operations.** Clean pavement surface before constructing
44 the rumble strips. Mill the concave depressions to the dimensions shown
45 in the plans.
46

47 Align the concave depressions as shown in the plans. Alignment
48 of milled rumble strips shall not deviate from the plans more than ± 2
49 inches.
50

51 After the concave depressions are milled into the pavement
52 surface, use a power broom or sweeper/vacuum to collect the waste
53 material resulting from the milling operations.
54

55 Contractor shall dispose the waste material as directed by the
56 Engineer at no increase in contract price or contract time.
57

58 **615.04 Measurement.** Milled Rumble Strip will be paid on a contract lump
59 sum basis. Measurement for payment will not apply.
60

61 **615.05 Payment.** The Engineer will pay for the accepted milled rumble strip
62 on a contract lump sum basis. Payment will be full compensation for the work
63 prescribed in this section and the contract documents.
