D. PRE-BID MEETING NOTES

Attached are the January 10, 2012 Pre-Bid Meeting Notes and Attendance Sheet.

E. REQUEST FOR INFORMATION

Pre-Bid – 01:

GPRSI would like to request that Item No. 209.1000 "Installation, Maintenance, Monitoring, and Removal of BMP" be paid under force account. On previous projects, GPRSI's understanding of BMP

Addendum No. 1
1/13/12

requirements varied greatly from the State's. By paying for BMPs under force account, the State would receive all the necessary environmental protection and the contractor would be compensated for performing the work.

At this time, HDOT policy is to have the Contractor bid on Item 209.1000 - Installation, Maintenance, Monitoring, and Removal of BMP as a lump sum item.

Pre-Bid – 02:

If it is not possible for BMPs to be paid under force account, would it be possible for the State to provide a sample BMP plan for this project? It would be beneficial to both contractors and the State if the State could provide an idea of what type of environmental protection is going to be expected on the project prior to the bid.

The type and limits of the BMP are dependent upon the Contractor's means and methods for construction through differing site conditions throughout the length of the project. The Contractor should consider this in determining the cost of the initial BMP.

Pre-Bid – 03:

There is a pay item in the project proposal schedule for ET-2000 end terminals (Item No. 606.7020), but no ET-2000 end terminals are called out in the plans. Is there a mistake in the proposal or plans? If not, can you please explain what this item is for?

References to ET-2000 end treatments will be deleted from the contract per the amendments in Addendum No. 1 for the project.

Please acknowledge receipt of this Addendum No. 1 by recording the date of its receipt in the space provided on page P-4 of the Proposal.

GLENN M. OKIMOTO, Ph.D.
Director of Transportation

Unlisted classifications needed for work not included within
the scope of the classifications listed may be added after
award only as provided in the labor standards contract clauses
(29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification
and wage rates that have been found to be prevailing for the
cited type(s) of construction in the area covered by the wage
determination. The classifications are listed in alphabetical
order of "identifiers" that indicate whether the particular
rate is union or non-union.

Union Identifiers

An identifier enclosed in dotted lines beginning with
characters other than "SU" denotes that the union
classification and rate have found to be prevailing for that
classification. Example: PLUM0198-005 07/01/2011. The
first four letters, PLUM, indicate the international union and
the four-digit number, 0198, that follows indicates the local
union number or district council number where applicable,
i.e., Plumbers Local 0198. The next number, 005 in the
example, is an internal number used in processing the wage
determination. The date, 07/01/2011, following these
characters is the effective date of the most current
negotiated rate/collective bargaining agreement which would be
July 1, 2011 in the above example.

Union prevailing wage rates will be updated to reflect any
changes in the collective bargaining agreements governing the
rate.

Non-Union Identifiers

Classifications listed under an "SU" identifier were derived
from survey data by computing average rates and are not union

rates; however, the data used in computing these rates may include both union and non-union data. Example: SULA2004-007 5/13/2010. SU indicates the rates are not union rates, LA indicates the State of Louisiana; 2004 is the year of the survey; and 007 is an internal number used in producing the wage determination. A 1993 or later date, 5/13/2010, indicates the classifications and rates under that identifier were issued as a General Wage Determination on that date.

Survey wage rates will remain in effect and will not change until a new survey is conducted.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an

interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.
