

SECTION 617 - PLANTING SOIL

Make the following amendments to said Section:

(I) Amend 617.04 **Method of Measurement** to read as follows:

617.04 Method of Measurement. The Engineer will measure imported planting soil in the vehicle at the point of delivery per cubic yard."

(II) Amend 617.05 **Basis of Payment** to read as follows:

"617.05 Basis of Payment. The Engineer will pay for the accepted imported planting soil at the contract unit price per cubic yard

The price includes full compensation for placing the soil in windrows along the tops of cut slopes, removing and spreading the material over the prepared slopes, furnishing labors, materials, equipment, tools, and incidentals necessary to complete the work.

The Engineer will make payment under:

Pay Item	Pay Unit
Imported Planting Soil	Cubic Yard

The Engineer will consider planting soil obtained from within the highway right-of-way as selected material. The Engineer will pay this material under Section 203 - Excavation and Embankment.

The Engineer will not consider placing of materials in windrows as stockpiling as specified in Section 203 - Excavation and Embankment."

END OF SECTION
