

1 **SECTION 630 – TRAFFIC CONTROL GUIDE SIGNS**

2
3 Make the following amendment to said Section:

4
5 **(I)** Amend **Section 630.02 - Materials**, by replacing lines 28 to 29 to read:

6
7 “Retroreflective sheeting shall conform to criteria listed in ASTM D 4956
8 for the applicable type and class, or as amended in accordance with Subsection
9 750.01 - Signs.”

10
11 **(II)** Amend **Section 630.04 - Measurement**, by replacing lines 204 to 221 to
12 read:

13
14 **“630.04 Measurement.** The Engineer will measure destination sign panels by
15 the square foot of sign face.

16
17 The Engineer will measure destination and ground mounted expressway
18 sign (“E” Designation) posts by the linear foot.

19
20 The Engineer will measure the number of route markers assemblies as
21 complete units of the type and design specified in the proposal.

22
23 The Engineer will measure street name sign, street name sign on traffic
24 mast arm, and street name sign on traffic signal post per each in accordance with
25 the contract documents.

26
27 When the Engineer accepts an alternative design, the method of
28 measurement for the various contract items affected by the design shall be
29 identical with the various original contract items shown in the contract. The
30 Engineer will not measure the additional items that the Contractor requires for the
31 alternate design.

32
33 The Engineer will not measure removal and disposal and storing of existing
34 and temporary signs and markers that the Contractor will not incorporate in the
35 completed highway for payment.”

36
37 **(III)** Amend **630.05 – Payment** by revising lines 223 to 303 to read as follows:

38
39 **“630.05 Payment.** The Engineer will pay for destination sign panels at the
40 contract price per square foot for the type specified complete in place. Payment
41 will be full compensation for the work prescribed in this section and the contract
42 documents.

43
44 The Engineer will pay for route marker assemblies at the contract price
45 per each for the type and design specified complete in place. Payment will be

46 full compensation for the work prescribed in this section and the contract
47 documents.

48
49 The Engineer will pay for street name sign, street name sign on traffic
50 mast arm, and street name sign on traffic signal post at the contract price per
51 each. Payment will be full compensation for the work prescribed in this section
52 and the contract documents.

53
54 The Engineer will not pay for removing and disposing or storing of existing
55 and temporary signs that the Contractor will not incorporate in the completed
56 highway separately. The Engineer will consider them incidental to the various
57 contract items.

58
59 The Engineer will pay for the following pay items when included in the
60 proposal schedule:

61 Pay Item	62 Pay Unit
63 Panel for Destination Sign (Flat Panel)	64 Square Foot
65 Type _____ Route Marker Assembly	66 Each
67 Street Name Sign	68 Each
69 Street Name Sign on Traffic Signal Mast Arm	70 Each
71 Street Name Sign on Traffic Signal Post	72 Each
73 4.00 lbs/ft. Flanged Channel Post for Destination Sign	74 Each

75
76 When the Engineer accepts an alternate design, the total amount paid
77 shall be full compensation for furnishing and installing materials and furnishing
78 equipment, tools, labors, and incidentals necessary to complete the work. The
79 Engineer will not make payment for additional materials, equipment, tools, labor
80 and other incidentals that might become necessary to complete the installation
81 due to the alternate design.”

82
83
84
85 **END OF SECTION 630**
