

1 **SECTION 630 – TRAFFIC CONTROL GUIDE SIGNS**
2

3 Make the following amendment to said Section:
4

5 **(I)** Amend **Section 630.02 - Materials**, by replacing lines 28 to 29 to read:
6

7 “Retroreflective sheeting shall conform to criteria listed in ASTM D 4956
8 for the applicable type and class, or as amended in accordance with Subsection
9 750.01 - Signs.”
10

11 **(II)** Amend **Section 630.04 - Measurement**, by replacing lines 204 to 221 to
12 read:
13

14 **“630.04 Measurement.** The Engineer will measure destination sign panels by
15 the square foot of sign face.
16

17 The Engineer will measure destination and ground mounted expressway
18 sign (“E” Designation) posts by the linear foot.
19

20 The Engineer will measure overhead mounted expressway sign (“E”
21 designation) post and arm posts per each as complete units of the type and
22 design specified in the proposal.
23

24 The engineer will measure directional sign (“DIR” designation) posts per
25 each, complete in place.
26

27 The Engineer will measure the number of route markers assemblies as
28 complete units of the type and design specified in the proposal.
29

30 The Engineer will measure the footings for destination and ground
31 mounted expressway signs (“E” designation) as complete units for each type of
32 footing as specified in the proposal.
33

34 Measurement of contract items for construction of footings for overhead
35 mounted expressway signs will be as follows:
36

- 37 (1) The Engineer will measure excavation according to Section 204 –
38 Excavation and Backfill for Miscellaneous Facilities.
39
40 (2) The Engineer will measure concrete according to Section 503 –
41 Concrete Structures.
42
43 (3) The Engineer will measure reinforcing steel according to Section
44 602 – Reinforcing Steel.
45
46

47 When the Engineer accepts an alternative design, the method of
48 measurement for the various contract items affected by the design shall be
49 identical with the various original contract items shown in the contract. The
50 Engineer will not measure the additional items that the Contractor requires for the
51 alternate design.

52
53 The Engineer will not measure removal and disposal and storing of existing
54 and temporary signs and markers that the Contractor will not incorporate in the
55 completed highway for payment."

56
57 **(III) Amend 630.05 – Payment** by revising lines 223 to 303 to read as follows:

58
59 **"630.05 Payment.** The Engineer will pay for destination sign panels at the
60 contract price per square foot for the type specified complete in place. Payment
61 will be full compensation for the work prescribed in this section and the contract
62 documents.

63
64 The Engineer will pay for destination and ground mounted expressway
65 sign ("E" designation) posts at the contract price per linear foot for the type
66 specified complete in place. Payment will be full compensation for the work
67 prescribed in this section and the contract documents.

68
69 The Engineer will pay for overhead mounted expressway sign ("E"
70 designation) post and arm at the contract price per each type as specified
71 complete in place. Payment will be full compensation for the work prescribed in
72 this section and the contract documents.

73
74 The Engineer will pay for directional sign ("DIR" designation) posts at the
75 contract price per each for the type specified complete in place. Payment shall
76 be full compensation for the work prescribed in this section and the contract
77 documents.

78
79 The Engineer will pay for route marker assemblies at the contract price
80 per each for the type and design specified complete in place. Payment will be
81 full compensation for the work prescribed in this section and the contract
82 documents.

83
84 The Engineer will pay for footings for destination and ground mounted
85 expressway signs ("E" designation) at the contract price per each, complete in
86 place. Payment will be full compensation for the work prescribed in this section
87 and the contract documents.

88
89 The Engineer will not pay for removing and disposing or storing of existing
90 and temporary signs that the Contractor will not incorporate in the completed
91 highway separately. The Engineer will consider them incidental to the various
92 contract items.

The Engineer will not make payment other than those specified herein for the construction of footings for overhead mounted expressway signs. The Engineer will pay for the work, materials, tools, equipment and incidentals required in the construction of the footings for overhead mounted expressway signs under the following contract items:

- (1) Footing Excavation. The Engineer will make payment for footing excavation according to Section 204 – Excavation and Backfill for Miscellaneous Facilities.
- (2) Concrete. The Engineer will make payment for concrete in footings according to Section 503 – Concrete Structures.
- (3) Reinforcing Steel. The Engineer will make payment for reinforcing steel according to Section 602 – Reinforcing Steel.

The Engineer will pay for the following pay items when included in the proposal schedule:

Pay Item	Pay Unit
Panel for Destination Sign (Flat Panel)	Square Foot
4.00 lbs/ft Flanged Channel Post for Destination Sign	Each

When the Engineer accepts an alternate design, the total amount paid shall be full compensation for furnishing and installing materials and furnishing equipment, tools, labors, and incidentals necessary to complete the work. The Engineer will not make payment for additional materials, equipment, tools, labor and other incidentals that might become necessary to complete the installation due to the alternate design.

END OF SECTION 630
