CW20-7c	FLAGMAN 500 FT.	2	

GENERAL NOTES

- For Temporary Informational (TI) Signs:
 - Legends shall be black on white reflective sheeting background.
 - Legends shall be 6" upper case series E letters and shall conform to the latest FHWA publication: "Standard Alphabets for Highway Signs", and as amended.
 - Dates shall be determined by the Contractor and shall be subject to the Engineer's approval.
 - For signs TI-2 and TI-3, the distance (in miles) and sign location shall be determined by the Engineer and installed by the Contractor.
 - Sign plates shall be 4 feet high by 8 feet wide 3/4" weatherproof plywood or 0.100" sheet aluminum. The sign shall be mounted on 3-2 1/2"x 2 1/2" 10 gage galvanized steel square tube posts. For mounting details see sheet DT100.
 - Shall be displayed for at least one week prior to road closure.
- All roadway closure signs shall be displayed as shown on the plan and shall be promptly covered up or removed when the road is open to traffic. Signs shall be covered in a manner which will remain covered during periods of non-use. Cover shall resist being blown open under normal wind conditions.
- At the end of all construction work, all signs and barricades shall become the property of the State and the Contractor shall remove and stock pile all signs as directed by the Engineer. All costs shall be incidental to the various contract items.
- When any temporary bracing or false work is on the structure the existing R12-1(12) sign shall be replaced with a R12-1(10) sign.
- The Engineer shall inform all residents that live between mile post 28 and mile post 38 of all road closures.
