The following were raised at the meeting:

HDOT informed that HMA Pavement Mix No. IV shall be used instead of Superpave Asphalt Concrete Pavement as called out on the plans

Question # 1: The existing sign D-2 on Plan Sheet No. 13 was installed with a 2–4 lbs flange post. The plan calls out for post size of 2.5 lbs. Is the post sign correct? Does the concrete footings in front of the sign post needed to be removed?
