

SECTION 503 - CONCRETE STRUCTURES

Make the following amendments to said Section:

(I) Amend **503.04 Method of Measurement** to read as follows:

"503.04 Method of Measurement. The Engineer will measure the concrete structure per each complete in place."

(II) Amend **503.05 Basis of Payment** to read as follows:

"503.05 Basis of Payment. The Engineer will pay for the accepted concrete structure at the contract price per each complete in place.

The price includes full compensation for the concrete; for placing, curing and finishing; for structure excavation and backfill; for removing existing concrete cover and drilling holes for dowel bars; for furnishing materials including admixtures and cement (including extra cement added to concrete deposited under water); for furnishing and installing reinforcing steel, premolded joint fillers, joint seals, and waterproofing at construction joints; for furnishing and installing dowel bars, anchor bolts, hardware, and epoxy grout; for expansion joints and other similar items; for timber bumpers, forms, form lining and falsework or centering; and for equipment, tools, labor, materials, and incidentals necessary to complete the work.

The Engineer will make payment under:

Pay Item	Pay Unit
Concrete _____ (Class _____ <i>if applicable</i>)	Each"

END OF SECTION
