dirt backfill incidental to Concrete Gutter

existing gutter to be demolished

1½" Asphalt Concrete Pavement, Mix IV

existing roadway

New Concrete Gutter, Type 2 (6/6/6)
See sheet H-2 for detail

Plan view of proposed gutter and roadway widening. The diagram shows a cross-section of the road with dimensions: 3' on the left, 3' on the right, and 12" in the center. Labels include: existing ground, existing elevation to remain, saw cut, Waihee Valley Road, 6" (likely 6" gutter width), 1 1/2" Asphalt Concrete Mix IV, existing gutter to be demolished, and existing roadway. A note at the bottom left says: "see detail H-2 for detail".
