HAWAII	HAW.	NH-030-1(26)	1996	3	20

GENERAL NOTES

1. The scope of work for this project consists of placing rockfall protection netting on the slopes of Honoapiilani Highway along the Pali Section.
2. The Contractor is reminded of the requirements of Subsection 108.01 - Subletting of Contract, which requires him to perform work amounting to not less than 50 percent of the total contract cost less deductible items. Non-compliance with this Subsection may be grounds for rejection of bid.
3. The Contractor's attention is directed to the following Sections of the Special Provisions : Subsection 107.13 - Public Convenience and Safety; Subsection 107.21 - Contractor's Responsibility For Utility Property And Services; and Section 645 -Traffic Control.
4. At the end of each day's work, the Contractor shall remove all equipment and other obstructions to permit free and safe passage of public traffic.
5. The existence and location of underground and overhead utilities as shown on the plans are from the latest available data but the accuracy is not guaranteed. The Contractor shall be held liable for any damages incurred to the existing facilities and/or improvements as a result of his operations.
6. The exact location and limits or areas of rockfall protection shall be determined in the field by the Engineer.
