

Attachment C - Construction Schedule (SWPPP Section 7.2.5)

CONSTRUCTION SCHEDULE

Contractor to Update Construction Schedule 30 Days Prior to Start of Work

The date when the SWPPP, including erosion control measures will be implemented: Jan 1, 2022

All Perimeter Sediment Control and Inlet Protection BMPs will be installed prior to construction. These BMPs meet Section 5.1.1.3.1 as the inlets protected and the perimeter control BMPs are downstream of the construction work. The silt fences/perimeter sediment controls will be installed at different dates at each site and can be seen on the construction schedule. These BMPs will be installed per the manufacturer's recommendations.

The date when the general contractor will begin the earth-disturbing activities: Jan 1, 2022, there are various dates at each of the site when this will occur.

Cessation, temporarily or permanently, of construction activities on the site: Jan 1, 2022
construction schedule was developed with the idea that the crews would go from site to site performing the same task. Initially the power/communication infrastructure would be installed at each site and then the foundation/column/pole work would be constructed. That is the reason there are temporary and permanent cessations at each site. See attached construction schedule for preliminary dates at all sites.

Temporary stabilization of areas of exposed soil: Jan 1, 2022
Disturbed areas will be stabilized with asphalt or hydromulched and restored to original conditions by the contractor. See attached construction schedule for preliminary dates at all sites.

Final or temporary stabilization of areas of exposed soil: Jan 1, 2022
Disturbed areas will be stabilized with asphalt or hydromulched and restored to original conditions by the contractor. See attached construction schedule for preliminary dates at all sites.

The date when the general contractor will end site disturbance: Jan 1, 2022

The date when erosion control measures will be removed: Jan 1, 2022

The date when the Notice of Cessation form will be submitted: Jan 1, 2022
