**Construction Site Area**  
*(Item C.3 of Form C)*

(This page intentionally left blank.)

**C.3 Construction Site Area****Table 1**

<b>Site Number</b>	<b>Total Area (ac)<sup>1</sup></b>	<b>Disturbance Area (ac)</b>	<b>Impervious Area of the project site after construction is completed (ac)</b>
PID 496	25.6	25.6	0.00
PID 21	5.33	5.33	0.00
PID 246	2.96	2.96	0.08 <sup>2</sup>
PID 973	0.94	0.94	0.00 <sup>2</sup>
PID 223	7.45	7.45	0.00
<b>Total</b>	<b>42.3</b>	<b>42.3</b>	<b>0.08</b>

1- Total area was calculated using the anticipated area of each project site. An area of 1000 ft x width of DOT right-of-way was assumed for each site as disturbed area due to staging/storage area. Actual total project area will be determined by the contractor, who will provide site specific information at least 30 days before the start of construction activities. As such, a conservative estimate has been provided in Table 1.

2-PID 246 is located under the Farrington Highway overpass resulting in the new impervious area not significantly altering actual stormwater runoff quantities.
