Submission #:	HNR-6DRK-M4N2B	Date Submitted
Form:	CWB NOI Form version 1.7 (Pali Highway Resurfacing P2 - General)	Status
Submitted By:	Norman Leong	Submitted
Active Steps:	Assign To	
File/Reference #:		Reference
Description:	CWB NOI Form	

Notes	
There are currently no Submission Notes.	

Details

1a. NOI Requirements

I certify: I have read HAR, Chapters 11-54 and 11-55. I understand that State law prohibits any water pollution in compliance with HAR, Chapters 11-54 and 11-55. I understand that the NPDES General Permits are a privilege, not a right, and I understand that the NPDES General Permits are rules, not permits to be issued. I understand that the NPDES General Permit does not cover "after the fact" discharges/activities. I have read every condition of the NPDES General Permit. I have read every condition of the NPDES General Permit. I have read every condition of the NPDES General Permit. I am requesting coverage under. I have determined that my project/activity and organization can, and will, comply with every condition of the applicable NPDES General Permit, and any and all legal obligations. I understand that I may only submit the project/activity and organization can, and will, comply with every condition of the applicable NPDES General Permit. I understand that the Notice of General Permit Coverage (NGPC) is not a permit; it is a notice of coverage for already issued NPDES General Permit.

Yes.

NPDES general permits cannot cover "after the fact" discharges/activities. You are required to certify below that your project/activity and organization can, and will, comply with every condition of the applicable NPDES General Permit. I understand that the Notice of General Permit Coverage (NGPC) is not a permit; it is a notice of coverage for already issued NPDES General Permit.

I certify that the information provided in this NOI does not contain "after the fact" discharges/activities.

You are required to report any discharges/activities associated with your project/facility that started before only applies to discharges to State waters and activities that require NPDES permit coverage [e.g. construction]. Please select one (1) of the options below.

I did not start any discharges/activities associated with my project/facility.

I certify under penalty of law that my proposed discharge will not impair any State waters (including but not ponds, ground waters, and ocean), Native Hawaiian cultural resources (including but not limited to burial of traditional Native Hawaiian cultural practices.

Yes, I certify.

If you answered No above, describe the step(s) you will take to reasonably protect those State waters, Native traditional Native Hawaiian cultural practices. Please only include the steps that have been accepted by the appropriate agencies. Note: It is your responsibility under the Constitution of the State of Hawaii to mitigate. NONE PROVIDED

1b. Emergency-Related Construction Activities

I am conducting earth-disturbing activities in response to a public emergency that meets the eligibility requirements in Appendix C, Sections 1.3 and 7.2.3.

NONE PROVIDED

Please state the cause of the public emergency (e.g. natural disaster, extreme flooding conditions, etc.).

NONE PROVIDED

Please describe the construction necessary to reestablish the affected public service.

NONE PROVIDED

Official Emergency Declaration - Attachment

NONE PROVIDED

Comment: NONE PROVIDED

Please complete the remaining sections of this form (Sections 2 through 9). Pursuant to HAR 11-55, Appendix C, you must submit the NPDES General Permit Authorizing Discharges of Storm Water Associated with Construction Activities if you submit the permit application through the e-Permitting Portal, pay the required filing fee, and submit the Transmittal Requirements and Certification Statement for e-Permit within 30 calendar days after the start of construction activities for an official emergency declaration. You may immediately begin related construction activities provided that you comply with all other applicable laws and regulations.

2. Owner Information

Owner Legal Name

State of Hawaii

Owner Department

Department of Transportation

Owner Division

Highways Division

Owner Mailing Address

869 Punchbowl Street
Honolulu, HI 96813

Owner's Street Address

869 Punchbowl Street
Honolulu, HI 96813

Owner Type

Municipal - City, County, or State Government Project

Signatory Type

The person certifying this NOI must meet one of the following descriptions and be employed by the Owner. Please on the items listed below.

State Agency: I certify that for a state agency, I am a principal executive officer or ranking elected official.

Municipal Agency: I certify that for a municipal agency, I am a principal executive officer or ranking elected official.

Non-Federal Public Agency: I certify that for a non-federal public agency, I am a principal executive officer or ranking elected official.

Federal Agency: I certify that for a federal agency, I am the chief executive officer of the agency, or I am the senior overall operations of a principal geographic unit of the agency.

Partnership: I certify that I am a general partner for a partnership.

Proprietorship: I certify that I am the proprietor for a sole proprietorship.

Corporation Officer: I certify that for a corporation, I am the President, Vice President, Secretary, or Treasurer of the business function, or I perform similar policy or decision-making functions for the corporation.

Corporation Manager: I certify that for a corporation, I am the Manager of one or more manufacturing, production, or construction activities, or I make management decisions which govern the operation of the regulated facility or facilities including having the authority to make investment recommendations, and initiating and directing other comprehensive measures to assure long term environmental compliance with laws and regulations. I can ensure that the necessary systems are established or actions taken to gather complete application requirements and authority to sign documents has been assigned or delegated to me in accordance with the requirements.

Trust: I certify that for a trust, I am a trustee.

LLC: I certify that for a limited liability company (LLC), I am the Manager or a Member authorized to make management decisions for a principal business function, or I perform similar policy or decisionmaking functions for the LLC.

Please Select the Signatory Type based on the above descriptions.

6. Receiving State Water(s) Information (1 of 18)

HAR, Section 11-54-1 defines State waters as: All waters, fresh, brackish, or salt around and within the State, including streams, rivers, drainage ditches, ponds, reservoirs, canals, and lakes; provided that drainage ditches, ponds, and control system are excluded. This chapter applies to all state waters, including wetlands, subject to the following exceptions: (1) This chapter does not apply to ditches, flumes, ponds and reservoirs that are required as part of a wastewater treatment control system. (2) This chapter does not apply to ditches, flumes, ponds, and reservoirs that are used solely for irrigation and do not overflow. (3) Ditches, flumes, ponds, and reservoirs are waters of the United States as defined at 40 C.F.R. 122.2.

A receiving State water is the first State water that receives the discharge. Note: You must identify a receiving State water. Identify the receiving State water name in relation to the facility or project site based on the topography or contours of the site, including percolation, retention, detention, etc. The receiving State water must be a surface water. Sample responses for this question include: Honolulu Harbor, Pearl Harbor, Aiea Stream, Unnamed Stream Kalo Gulch, Unnamed Dry Gulch, Unnamed Wetland.

Receiving State Water Classification

Class 1, Inland

Coordinates of the Discharge Point into State waters

Provide the coordinates of the discharge point (in decimal degrees) where discharge from the facility or construction project first enters a storm drainage system, provide the discharge point coordinates for the outfall where the discharge first enters a receiving State water. If the storm water discharge enters the receiving State water as a sheet flow, provide the coordinates based on the location of the discharge point. Example: Discharge Point 1 (From) Latitude 21.274685 N, Longitude 158.012768 W (Click the "+" button in the tab heading to add a new point) Discharge Point 1 (To) Latitude 21.304811N, Longitude 158.022721 W

Properly label the discharge points with numbers (i.e., Discharge Point No. 1, Discharge Point No. 2, etc.) which correspond to the discharge point(s) submitted.

Are there additional discharge points into receiving State waters?

Yes

If YES was selected, click the "+" button in the tab area at the top of this section to describe additional discharge points.

6. Receiving State Water(s) Information (8 of 18)

HAR, Section 11-54-1 defines State waters as: All waters, fresh, brackish, or salt around and within the State, including streams, rivers, drainage ditches, ponds, reservoirs, canals, and lakes; provided that drainage ditches, ponds, and control system are excluded. This chapter applies to all state waters, including wetlands, subject to the following exceptions: (1) This chapter does not apply to ditches, flumes, ponds and reservoirs that are required as part of a water control system. (2) This chapter does not apply to ditches, flumes, ponds, and reservoirs that are used solely for irrigation and do not overflow. (3) Ditches, flumes, ponds, and reservoirs are waters of the United States as defined at 40 C.F.R. 122.2.

A receiving State water is the first State water that receives the discharge. Note: You must identify a receiving State water. Identify the receiving State water name in relation to the facility or project site based on the topography or contours of the site, percolation, retention, detention, etc. The receiving State water must be a surface water. Sample responses for this field include: Honolulu Harbor, Pearl Harbor, Aiea Stream, Unnamed Stream Kalo Gulch, Unnamed Dry Gulch, Unnamed Wetland.

6. Receiving State Water(s) Information (17 of 18)

HAR, Section 11-54-1 defines State waters as: All waters, fresh, brackish, or salt around and within the State, including streams, rivers, drainage ditches, ponds, reservoirs, canals, and lakes; provided that drainage ditches, ponds, and control system are excluded. This chapter applies to all state waters, including wetlands, subject to the following exceptions: (1) This chapter does not apply to ditches, flumes, ponds and reservoirs that are required as part of a wastewater treatment control system. (2) This chapter does not apply to ditches, flumes, ponds, and reservoirs that are used solely for irrigation and do not overflow. (3) Ditches, flumes, ponds, and reservoirs are waters of the United States as defined at 40 C.F.R. 122.2.

A receiving State water is the first State water that receives the discharge. Note: You must identify a receiving State water. Identify the receiving State water name in relation to the facility or project site based on the topography or contours of the site, including percolation, retention, detention, etc. The receiving State water must be a surface water. Sample responses for this field include Honolulu Harbor, Pearl Harbor, Aiea Stream, Unnamed Stream Kaloi Gulch, Unnamed Dry Gulch, Unnamed Wetland, etc.

Receiving State Waters Name

Unnamed Gulch

Select the receiving State water CLASSIFICATION:

Classifications are defined in HAR, Chapter 11-54 and on the Water Quality Standards Maps available on the CWE website. The maps are provided for general information only and are to be used in conjunction with HAR, Chapter 11-54. Click on the link below to view Chapter 11-54.

[HAR, Chapter 11-54](#)

The Water Quality Standards Maps can be found by clicking on the link below.

[Water Quality Standards Maps](#)

Receiving State Water Classification

Class 2, Inland

Coordinates of the Discharge Point into State waters

Provide the coordinates of the discharge point (in decimal degrees) where discharge from the facility or construction project first enters a storm drainage system, provide the discharge point coordinates for the outfall where the discharge first enters a receiving State water. If the storm water discharge enters the receiving State water as a sheet flow, provide the coordinates based on the location of the discharge point. Example: Discharge Point 1 (From) Latitude 21.274685 N, Longitude 158.012768 W (Click the "+" button in the tab heading to add a new point) Discharge Point 1 (To) Latitude 21.304811N, Longitude 158.022721 W

Properly label the discharge points with numbers (i.e., Discharge Point No. 1, Discharge Point No. 2, etc.) which correspond to the discharge point(s) submitted.

7. Receiving Drainage System(s) Information (1 of 2)

Does the discharge enter a STORMWATER DRAINAGE SYSTEM before discharging into the receiving State?
Yes

If YES selected, provide the information for ALL of the following questions in this section.

Drainage System Owner's Name

State of Hawaii Department of Transportation

Drainage System Owner's Approval

Please submit the Drainage System owner's approval to allow the subject discharge to enter their Drainage System. If you do not have to submit the approval, you do not have to submit the approval. If you are requesting coverage under HAR 11-55, Appendix C, do submit approval in your SWPPP before the start of construction.

Drainage System Owner's Approval to Discharge - Attachment

NONE PROVIDED

Comment: NONE PROVIDED

Please note that if you did not attach the Drainage System Owner's Approval to this application, you are required to submit the approval at least 30 calendar days before the start of discharge.

Will Drainage System Owner's approval be submitted at least 30 calendar days before start of discharge?

NONE PROVIDED

If the Drainage System Owner is the same as the Owner of this Project, please select one of the following.

Municipal - System is municipally owned and the appropriate Department will be informed and approval granted.

Are there additional Drainage Systems that may receive stormwater runoff from the project?

Yes

If YES was selected, click the "+" button in the tab area at the top of this section to provide additional Receiving Drainage System(s) Information.

7. Receiving Drainage System(s) Information (2 of 2)

Does the discharge enter a STORMWATER DRAINAGE SYSTEM before discharging into the receiving State?
Yes

If YES selected, provide the information for ALL of the following questions in this section.

Drainage System Owner's Name

City and County of Honolulu

Drainage System Owner's Approval

Please submit the Drainage System owner's approval to allow the subject discharge to enter their Drainage System. If you are requesting coverage under HAR 11-55, Appendix C, do not submit the approval. If you are requesting coverage under HAR 11-55, Appendix C, do not submit the approval in your SWPPP before the start of construction.

Drainage System Owner's Approval to Discharge - Attachment

Comment: NONE PROVIDED

Please note that if you did not attach the Drainage System Owner's Approval to this application, you are required to submit the approval at least 30 calendar days before the start of discharge.

Will Drainage System Owner's approval be submitted at least 30 calendar days before start of discharge?

Yes.

If the Drainage System Owner is the same as the Owner of this Project, please select one of the following.

NONE PROVIDED

Are there additional Drainage Systems that may receive stormwater runoff from the project?

NONE PROVIDED

If YES was selected, click the "+" button in the tab area at the top of this section to provide additional Receiving Drainage System Information.

8. Authorized Representative

Authorization

The Certifying Person hereby authorizes the named individual or any individual occupying the named position of the named individual to submit information/documents necessary to complete the NOI to discharge to State waters for the named individual. The Owner hereby agrees to comply with and be responsible for all NPDES general permit conditions, except for the named individual (NOC). The Owner hereby agrees to comply with and be responsible for all NPDES general permit conditions. This authorization ends upon receipt of the NOC by the CWB. The Owner authorizes the duly authorized representative to submit additional information/documents necessary to complete the NOI to discharge to State waters for the named individual.

complete the NOI and to submit information/documents to comply with the NPDES general permit conditions. The information/documents submitted by the duly authorized representative for completion of the NOI and for compliance. The Certifying Person is required to sign the NOC for the project. After receipt of the NOC for the project, the duly authorized representative is recognized by the CWB. The responsibility of the authorized representative cannot be delegated to an outside consulting company - they cannot sign as the "authorized representative" on behalf of the Owner. This requirement stems from the Clean Water Act and Hawaii Water Pollution statutes; reports filed with CWB can have serious legal consequences. The Owner in signing reports, therefore, must be represented by someone who has some responsibility for the report. The Certifying Person attests that the authorized representative 1) meets the requirements of HAR 11-55-07(b); and 2) is a person or corporation/organization who can attest to the accuracy of reports either because he or she participated in the preparation of the report or did prepare it and can attest that those individuals followed standard protocols that ensure the accuracy of the reports. The authorized representative understands that they can be subject to civil and criminal liability for non-compliance with NPDES general permits under HAR Chapters 11-54 and 11-55, and for falsifying information.

Authorized Representative Contact Information

Complete the following for your Authorized Representative.

Authorized Representative Company/Organization Name

State of Hawaii

Authorized Representative Department

Department of Transportation

Comment:

d. NOI forms.

Please see below for all of the NOI forms. A description of the discharge/activity is provided. Click on the link to download.

NOI Form B - Discharges of storm water associated with industrial activities. NPDES permit coverage is required for discharges with industrial activity(ies), as categorized in 40 CFR 122.26(b)(14)(i) through 122.26(b)(14)(ix) and 122.26(b)(14)(x).

[Click on this link to download NOI Form B.](#)

NOI Form C - Discharges of storm water associated with construction activities. NPDES permit coverage is required for more of total land area. NPDES permit coverage is also required for activities that disturb less than one (1) acre of common plan of development or sale if the larger common plan will ultimately disturb one (1) acre or more of total land area. Disturbance includes, but is not limited to clearing, grubbing, grading, excavation, demolition (even if leaving foundation staging on grassed areas or bare ground, equipment staging on a paved roadway (only if area blocked off from public use that touches the base course. Note: Areas which are cleared, graded, and/or excavated for the sole purpose of ground preparation and are therefore not included in the disturbed area quantity. This exemption does not extend to the construction of agriculture-related operations that disturb one (1) acre or more.

[Click on this link to download NOI Form C.](#)

NOI Form D - Discharges of treated effluent from leaking underground storage tank remedial activities. NPDES permit coverage for discharge of treated ground water to State waters from the cleanup (or remedial action) of underground storage tanks.

[Click on this link to download NOI Form D.](#)

NOI Form E - Discharges of once through cooling water less than (1) million gallons per day. NPDES permit coverage for discharge of once through cooling water with a total flow of less than one (1) million gallons per day. "once through cooling water" means cooling condensers one or two times for the purpose of removing waste heat.

[Click on this link to download NOI Form E.](#)

NOI Form F - Discharges of hydrotesting waters. NPDES permit coverage is required for the release or discharge of "Hydrotesting Waters" means water used to test the integrity of a tank or pipeline, pipeline disinfection, and/or pipe replacement.

[Click on this link to download NOI Form F.](#)

NOI Form G - Discharges of construction activity dewatering. NPDES permit coverage is required for discharges to surface waters of dewatering effluent. "Dewatering Effluent" is any type of water (e.g. ground water, storm water, stream water, ocean water, etc.) that is discharged to surface waters from a construction area.

[Click on this link to download NOI Form G.](#)

NOI Form H - Discharges of treated process wastewater associated with petroleum bulk stations and terminals. NPDES permit coverage for discharges to State waters of treated process wastewater effluent from petroleum bulk stations and terminals. Treated process wastewater includes water draws, product displacement process wastewater, wash down and fire hydrant system test waters, service station cleaning, and contaminated storm water runoff from the product storage and handling areas.

[Click on this link to download NOI Form H.](#)

NOI Form I - Discharges of treated process wastewater associated with well drilling activities. NPDES permit coverage for discharge of treated process wastewater associated with well drilling activities. Treated process wastewater includes well drill water and well purge wastewaters.

[Click on this link to download NOI Form I.](#)

NOI Form K - Discharges of storm water and certain non-storm water discharges from small Municipal Separate St coverage is required for storm water and certain non-storm water discharges to State waters from small MS4s.

[Click on this link to download NOI Form K.](#)

NOI Form L - Discharges of circulation water from decorative ponds or tanks. NPDES permit coverage is required for water from decorative ponds or tanks containing fish or other aquatic species.

[Click on this link to download NOI Form L.](#)
