

Attachment C - Construction Schedule (SWPPP Section 7.2.5)

CONSTRUCTION SCHEDULE

The date when the SWPPP, including erosion control measures will be implemented: June 13, 2022

All Perimeter Sediment Control and Inlet Protection BMPs will be installed prior to construction. These BMPs meet Section 5.1.1.3.1 as the inlets protected and the perimeter control BMPs are downstream of the paving work. These BMPs will be installed per the manufacturer's recommendations.

The date when the general contractor will begin the earth-disturbing activities: July 1, 2022

Cessation, temporarily or permanently, of construction activities on the site: May 11, 2023
Resurfacing, reconstructing, applying High Friction Surface Treatment on AC pavement, regrooving of PCC pavement, and installing guardrail and end treatments, milled shoulder rumble strips, new signage and striping will be completed on May 11, 2023.

Final or temporary stabilization of areas of exposed soil: May 11, 2023
Resurfacing and reconstruction areas will be stabilized with asphalt. The grass in the shoulder are expected to be of uniform distribution without large bare areas and 70% of the density of the previous coverage.

The date when the general contractor will end site disturbance: May 11, 2023

The date when erosion control measures will be removed: May 26, 2023

The date when the Notice of Cessation form will be submitted: June 2, 2023
