1			SECTION 630 – TRAFFIC CONTROL GUIDE SIGNS			
2 3 4	Make the following amendment to said Section:					
5 6	(I)	Amen	nd Section 630.02 - Materials , by replacing lines 28 to 29 to read:			
7 8 9 10			preflective sheeting shall conform to criteria listed in ASTM D 4956 cable type and class, or as amended in accordance with Subsection ns."			
10 11 12 13	(II)	Amen read:	nd Section 630.04 - Measurement , by replacing lines 204 to 221 to			
13 14 15 16	" 630. (direct		easurement. The Engineer will measure destination, expressway, nd exit number sign panels per each.			
17 18 19	sign (Engineer will measure destination and ground mounted expressway signation) posts per each.			
20 21 22 23	The Engineer will measure overhead mounted expressway sign ("E" designation) post and arm posts per each as complete units of the type and design specified in the proposal.					
23 24 25 26	each,		ngineer will measure directional sign ("DIR" designation) posts per ete in place.			
20 27 28 29	The Engineer will measure the number of route markers assemblies as complete units of the type and design specified in the proposal.					
30 31 32 33		The Engineer will measure the footings for destination and ground mounted expressway signs ("E" designation) as complete units for each type of footing as specified in the proposal.				
34 35 36	moun	Measurement of contract items for construction of footings for overhead mounted expressway signs will be as follows:				
37 38 39		(1)	The Engineer will measure excavation according to Section 204 – Excavation and Backfill for Miscellaneous Facilities.			
40 41		(2)	The Engineer will measure concrete according to Section 503 – Concrete Structures.			
42 43 44 45 46		(3)	The Engineer will measure reinforcing steel according to Section 602 – Reinforcing Steel.			

When the Engineer accepts an alternative design, the method of
measurement for the various contract items affected by the design shall be
identical with the various original contract items shown in the contract. The
Engineer will not measure the additional items that the Contractor requires for the
alternate design.

53 The Engineer will not measure removal and disposal and storing of existing 54 and temporary signs and markers that the Contractor will not incorporate in the 55 completed highway for payment."

- 56
- 57 58

(III) Amend 630.05 – Payment by revising lines 223 to 303 to read as follows:

630.05 Payment. The Engineer will pay for destination, expressway,
directional and exit number sign panels at the contract price per each for the type
specified complete in place. Payment will be full compensation for the work
prescribed in this section and the contract documents.

63

64 The Engineer will pay for destination and ground mounted expressway 65 sign ("E" designation) posts at the contract price per each for the type specified 66 complete in place. Payment will be full compensation for the work prescribed in 67 this section and the contract documents.

68

The Engineer will pay for overhead mounted expressway sign ("E"
designation) post and arm at the contract price per each type as specified
complete in place. Payment will be full compensation for the work prescribed in
this section and the contract documents.

73

The Engineer will pay for directional sign ("DIR" designation) posts at the contract price per each for the type specified complete in place. Payment shall be full compensation for the work prescribed in this section and the contract documents.

The Engineer will pay for route marker assemblies at the contract price
per each for the type and design specified complete in place. Payment will be
full compensation for the work prescribed in this section and the contract
documents.

83

The Engineer will pay for footings for destination and ground mounted expressway signs ("E" designation) at the contract price per each, complete in place. Payment will be full compensation for the work prescribed in this section and the contract documents.

88

The Engineer will not pay for removing and disposing or storing of existing and temporary signs that the Contractor will not incorporate in the completed highway separately. The Engineer will consider them incidental to the various contract items.

93					
94	The Engineer will not make payment other than those specified herein for				
95	the construction of footings for overhead mounted expressway signs. The				
96	Engineer will pay for the work, materials, tools, equipment and incidentals				
97	required in	the construction of the footings for overhead mounted expre	essway		
98	signs under	r the following contract items:			
99					
100	(1)	Footing Excavation. The Engineer will make payment fo	•		
101		excavation according to Section 204 – Excavation and B	ackfill for		
102		Miscellaneous Facilities.			
103					
104	(2)	Concrete. The Engineer will make payment for concrete	in footings		
105		according to Section 503 – Concrete Structures.			
106 107	(2)	Poinforcing Stool The Engineer will make novment for r	oinforcing		
107	(3)	Reinforcing Steel. The Engineer will make payment for r steel according to Section 602 – Reinforcing Steel.	ennorchig		
108		steel according to Section 002 – Reinforcing Steel.			
110					
111	The	Engineer will pay for the following pay items when included	in the
