HAWAII	HAW.	92A-01-88M	1988	3	9

GENERAL NOTES

1. The project begins on Ala Moana Boulevard at Ahui Street proceeding Waikiki bound and ends near Hobron Lane. Improvements include reconstruction of weakened pavement areas and concrete gutter with asphalt concrete base course and pavement, pavement marking, and traffic signal detector loop.
2. The existence and location of utilities including manholes, conduits, and structures as shown on the plans are from the latest available data but is not guaranteed as to accuracy or completeness. The Contractor shall contact the respective utility agencies for toning prior to start of work. The Contractor shall furnish the Engineer in the field with a copy of the correspondence.
3. The Contractor shall contact C & C of Honolulu, Department of Transportation Services, Traffic Signal Section (Telephone 527-5004) five days in advance for deactivation of traffic loop detectors within the work area. The Contractor shall complete work, including installation of new loop detectors, in one working day.
4. Improvements also include remarking the pavement from Koula Street to Ward Avenue.
