Unlisted classifications needed for work not included within
the scope of the classifications listed may be added after
award only as provided in the labor standards contract clauses
(29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification
and wage rates that have been found to be prevailing for the
cited type(s) of construction in the area covered by the wage
determination. The classifications are listed in alphabetical
order of "identifiers" that indicate whether the particular
rate is union or non-union.

Union Identifiers

An identifier enclosed in dotted lines beginning with
characters other than "SU" denotes that the union
classification and rate have found to be prevailing for that
classification. Example: PLUM0198-005 07/01/2011. The first
four letters, PLUM, indicate the international union and the
four-digit number, 0198, that follows indicates the local union
number or district council number where applicable, i.e.,
Plumbers Local 0198. The next number, 005 in the example, is
an internal number used in processing the wage determination.
The date, 07/01/2011, following these characters is the
effective date of the most current negotiated rate/collective
bargaining agreement which would be July 1, 2011 in the above
example.

Union prevailing wage rates will be updated to reflect any
changes in the collective bargaining agreements governing the
rates.

0000/9999: weighted union wage rates will be published annually
each January.

Non-Union Identifiers

Classifications listed under an "SU" identifier were derived
from survey data by computing average rates and are not union
rates; however, the data used in computing these rates may
include both union and non-union data. Example: SULA2004-007
5/13/2010. SU indicates the rates are not union majority rates,
LA indicates the State of Louisiana; 2004 is the year of the
survey; and 007 is an internal number used in producing the
wage determination. A 1993 or later date, 5/13/2010, indicates
the classifications and rates under that identifier were issued
as a General Wage Determination on that date.

Survey wage rates will remain in effect and will not change
until a new survey is conducted.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can
be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on
a wage determination matter

* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

January 9, 2013 PRE-BID MEETING MINUTES

Subject: Vineyard Boulevard Resurfacing
Vicinity of Palama Street to End of H-1 On-and-Off Ramp
Federal-Aid Project No. STP-098-1(011)

Attendees: See attached list of attendees.

A. The meeting was called to order by Jennifer Tadina (DOT Project Engineer) at about 9:00 a.m. to brief the prospective bidders for the subject project.

B. Questions:

1. What is the overall thickness of the pavement?

The overall pavement thickness varies. At the west end of the project along Halona and Olomea Streets and the H-1 on-ramp, the pavement thickness ranges from 35 to 37 inches. Along Vineyard Boulevard, the pavement thickness varies from 19 ¾ to 28 inches. At the east end of the project along the H-1 on- and off-ramps, the pavement thickness is about 5 ¼ inches.

2. Are there any rail lines or fiber optic cables within the project limits?

All known utilities are marked on the plans, but locations are approximate and Contractor shall verify the presence of existing utilities.

3. Would not the installation of water systems involve deep excavation that may interfere with existing utility lines?

No. The installation of water systems is for irrigation lines. The water systems are necessary to connect the irrigation lines to the Board of Water Supply system.

4. Is there P.C.C. under the proposed left turn lane extension?

Contractor may encounter P.C.C. pavement 1 ½ inches to 2 inches beneath A.C. pavement at auxiliary lanes. See Plan Sheet No. 7.

5. Was a Noise Variance permit acquired?

Yes.

6. Was an NPDES permit acquired?

Yes.

7. Can you verify the 1-lane daytime closures in Special Provision Section 645(II)(F)(2)? Is the end time supposed to be 3:00 P.M. instead of 3:00 A.M.?

It should be 3:00 P.M. See Addendum No. 2.

8. Are there other projects in the area?

Yes. See Special Provision Section 108.01.

9. Is the skipped portion of Liliha Street being covered under another project?

Yes.

10. Do you have any recommendations for staging areas?

Contractor shall determine staging areas which must be approved by the Engineer.

11. Who qualifies as a DBE?

The DBE program targets underutilized DBEs that fall under the categories of Native Americans/Native Hawaiians, Hispanic Americans, African Americans, and Women only. Tongans, Samoans and Micronesians do not fall under the Native American/Native Hawaiian category. Portuguese falls under Hispanic American.

12. Are DBEs who fall under this category aware of their qualification?

Yes, they have been certified.

13. Is 12% a hard goal that must be met?

If the DBE goal cannot be met, Contractor must show good faith effort.

14. Are force account items taken into consideration when determining the DBE goal?

Force account items are taken out of the equation used to calculate the DBE goal.

15. What types of subcontractor work were considered for DBE?

Some of the work includes concrete, demolition, hauling, landscaping, and traffic control.

16. How long does it take to qualify a DBE?

It takes about 90 days to qualify a DBE, but the DBE must be certified by bid opening.

17. Is there a list of certified DBEs?

Yes. The list can be found online at the website mentioned on page 1 of the DBE Requirements.

18. What is the Department's overall DBE goal?

The Department's overall DBE goal is 60 to 70%.

19. Can you get credit for "overutilized" DBE for future projects?

No.

20. If the Contractor meets the DBE goal on its bid, what happens if they don't meet the goal during construction?

It depends on the situation. The Contractor could lose the job.

21. Can only subcontractors participate as DBEs?

No. A DBE can also participate as a general contractor.

22. Who is the DBE Officer?

Jamie Ho is the DBE Officer. She may be contacted by phone at 587-2185 or by e-mail at Jamie.Ho@hawaii.gov.

23. Is there a provision for "short supply"?

Yes. See Supplement to Proposal Schedule Page P-15.

24. How hard is it for DBE to add more to its certified scope of work?

It can be quick.

C. Reminders:

1. **Contractors must submit their subcontractor listing with dollar amounts 5 days after bid opening.**

2. **When Contractors submit their bid, they must also submit their certification for prompt payment.**

D. HWY-DD mentioned that the State DOT will be extending the Bid Opening and issuing an addendum.

E. Meeting was adjourned at about 10:10 a.m.
