

## List of Figures

Figure 1. Portion of the 1998 Honolulu USGS 7.5-minute topographic quadrangle showing the location of the project area.....	2
Figure 2. Tax Map Key (TMK) [1] 3-2 showing the west side of the project area (Hawai‘i TMK Service 2014) .....	3
Figure 3. TMK: [1] 3-5 showing the east side of the project area (Hawai‘i TMK Service 2014) .....	4
Figure 4. Aerial photograph of the project area (Google Earth 2013).....	5
Figure 5. Proposed work sites, Interstate Route H-1 Guardrail and Shoulder Improvements Project (HDOT 2016) .....	6
Figure 6. 2013 Google Earth aerial photograph with overlay of Soil Survey of the State of Hawaii (Foote et al. 1972; USDA SSURGO 2001), indicating soil types within and surrounding the project area.....	10
Figure 7. Cut area of the project APE showing unimproved slopes from the H-1 shoulder, view to southeast.....	12
Figure 8. Raised area of the project APE, view to northwest.....	12
Figure 9. At original surface grade area of project APE at transition between raised and cut areas, view to southeast.....	13
Figure 10. Concrete retaining wall within the project APE, view to west.....	13
Figure 11. Basalt retaining walls on the westbound side of the project APE, view to west.....	14
Figure 12. Basalt retaining walls on the eastbound side of the project APE, view to southeast ...	14
Figure 13. Basalt retaining walls within the project APE, view to west .....	15
Figure 14. Basalt retaining walls at the Wai‘alae Avenue Exit (Exit 26B) within the project APE, view to east.....	15
Figure 15. Trails on O‘ahu ca. 1810, based on description in ‘Ī‘Ī (1959:92, 94); drawn by Gerald Ober.....	17
Figure 16. 1855 LaPasse map of the South Coast of O‘ahu (portion), showing project area between and outside of the main taro cultivation and habitation areas. To the west are the ponds (ovals), taro fields (squares), and habitation areas in coconut groves (small circles) of Waikīkī; to the east is the settlement and coconut grove of Wai‘alae .....	23
Figure 17. 1893 Wall map (portion) of the Honolulu District, showing little cultivation in main portion of project area, but rice fields in the extreme western end of the proeject area.....	24
Figure 18. 1881 Bishop map (portion) of Waikīkī showing western end of project area in Pāhoa ‘Īli, Waikīkī Ahupua‘a; the project area is in a generally barren area, with no noted habitations and cultivated patches.....	26
Figure 19. 1883 Monsarrat map (portion) of government land around Lē‘ahi (Diamond Head), showing the west central portion in the ‘ili of Kapahulu (makai of “Kekio”) in Palolo Ahupua‘a, the central portion in an irregular section of Wai‘alae Iki Ahupua‘a and the eastern section in Wai‘alae Nui Ahupua‘a; note the roads shown in the Kapahulu section are dashed, indicating that at this point they are “unimproved” (dirt roads) are merely “proposed” .....	27

Figure 20. 1902 Donn map (portion) of O‘ahu (Registered Map No. 2374), showing project area near the early residential areas of Kapahulu (near Diamond Head) and the “Kaimuki Tract” .....	29
Figure 21. Portion of the 1919 Honolulu and 1919 Koko Head U.S. Army War Department fire control map, showing the location of the project area; at this time the grid of roads in Kaimukī and Kapahulu are laid out, but houses and commercial structures are still scattered along the main roads; the Wai‘alae section is still largely undeveloped, shown divided into fenced areas for cattle .....	30
Figure 22. 1920 Monsarrat map (portion) of the Honolulu, showing the western section mainly in the “Kaimuki Tract” .....	31
Figure 23. 1927 Land Court Application 828 Mapa to Bishop Estate, showing ranch lands and the house of John Ross and Paul Isenberg at the coast (Hawai‘i Land Survey Division 1927); the eastern section of the project area terminates before the cluster of kuleana awards near Wai‘alae Spring shown in the upper portion of the map.....	35
Figure 24. Portion of the 1933 Honolulu and 1934 Koko Head U.S. Army War Department fire control map, showing the location of the project area; the Kaimukī-Kapahulu area is a dense residential area, and development in Wai‘alae has begun both along the coast and into Wai‘alae Nui Valley .....	36
Figure 25. Portion of the 1943 Diamond Head U.S. Army War Department terrain map, showing the location of the project area; the map is similar to the 1933 map.....	37
Figure 26. Portion of the 1953 Honolulu USGS topographic quadrangle showing location of the project area; individual houses are no longer shown, but red shading indicates most of the area is in a well-developed residential area; the eastern end skirts the boundary of the Wai‘alae Golf Course .....	38
Figure 27. Portion of the 1969 Honolulu USGS topographic quadrangle showing location of the project area; the project area is within a dense mixed residential/commercial area (red shade) and terminates at the eastern end on the boundary of the Wai‘alae Golf Course .....	39
Figure 28. Portion of the 1998 Honolulu USGS topographic quadrangle showing previous archaeological study areas in the vicinity of the project area .....	41
Figure 29. Portion of the 1998 Honolulu USGS topographic quadrangle showing previously identified historic properties in the vicinity of the project area .....	42

## List of Tables

Table 1. Proposed work by phase and site for the H-1 Guardrail Shoulder Improvements project.....	7
Table 2. Previous archaeological work in the vicinity of the project area.....	43
Table 3. Previously identified historic properties in the vicinity of the Project Area .....	46
