Dear **Mr. Kage:**

Geolabs, Inc. is pleased to submit our report entitled "Geotechnical Engineering Exploration, Interstate Route H-1 (EB) Improvements, Ola Lane Overpass to Kalihi Street Interchange, Honolulu, Oahu, Hawaii," prepared for the design of the project.

Our work was performed in general accordance with our fee proposals dated December 10, 2019 and December 21, 2020.

Please note that the soil samples and rock cores recovered during our field exploration (remaining after testing) will be stored for a period of two months from the date of this report. The samples will be discarded after that date unless arrangements are made for a longer sample storage period. Please contact our office for alternative sample storage requirements, if appropriate.

Detailed discussion and specific design recommendations are contained in the body of this report. If there is any point that is not clear, please contact our office.

Very truly yours,

GEOLABS, INC.

Gerald Y. Seki, P.E.
