Project: **INTERSTATE ROUTE H-1 ADDITION AND MODIFICATION OF FREEWAY ACCESS (KAPOLEI INTERCHANGE COMPLEX), PHASE 3 FEDERAL-AID PROJECT NO. NH-H1-1(271)**

Prospective bidders had submitted RFI**'s via HIePRO**. Questions and responses are as follows:

34. Referencing Spec Section 511 – Drilled Shafts: No drilled shafts are shown on the plans. Please clarify intent of this spec section

Electrical details call out Std. Plan TE-47. Per TE-47 note 2, "Refer to State Standard Specifications Section 511 for drilled shaft concrete properties."

35. Spec Section 503 – Concrete Structures: This section mentions Box Girder Spans, Bridge **decks, bridge approach slabs., etc., that don't apply to this project. Please clarify int**ent?

Section 503 is intended to replace Section 503 in the 2005 Hawaii Standard Specifications, so some sections may not apply to the project. Those particular sections mentioned will not apply to this project.

36. Spec Section 719 – Macrofibers for Concrete Reinforcement. Please clarify where this is required.

See Addendum No. 4 Det. 2/T-13 Pavement Detail.

37. In response to answer to RFI#16: Spec Section 411-13a (1) Longitudinal Joints says to place **30" long deformed tie bars. However, std det D-21 shows 40" long deformed bars. Please** clarify?

Follow the Spec Section.

38. In response to answer to RFI#16: Are the tie bars to conform to Standard Plan Note #1 or Subsection 709.01(F) – Tie Bars per Spec Section 411-15a?

Follow the Spec Section.

39. In response to answer to RFI #16: Are the dowels to conform to Standard Plan Note #1 or Subsection 709.01(E) – Dowels per Spec Section 411-15a?

Follow the Spec Section.

40. **Addendum 2 deleted 2ea Type "C" Manholes from Drainline B, which should delete Bid** Item 604.1800

Removed Bid Item 604.1800 Type "C" Manhole, 21 Feet to 21.99 Feet. See Addendum No. 4.
